

Syed Muhammad Aun Raza Zaidi

Data Analyst & AI Enthusiast

Augsburg (Open to Relocate), Germany | +49 176 42085169

syed.aunraza.zaidi@gmail.com | linkedin.com/in/aun-raza

PROFILE

Data analytics professional with hands-on experience in Databricks, PySpark, SQL, Power BI, and enterprise data platforms. Experienced in building analytics workflows, transforming large datasets, developing semantic data models, and supporting AI-driven use cases in engineering environments. Passionate about building reliable and maintainable data systems that enable data-driven decision making.

SKILLS

- **Azure Databricks** — Notebooks, Job Pipelines, Unity Catalog, Spark, AI/ML Playground, Databricks Apps, Data Pipelines
- **Business Intelligence & Semantic Modeling** — Power BI, DAX, Power Query, M Language, RLS, Semantic Layer Design, Self Service Analytics, KPI Reporting
- **SQL & Data Modeling** — SQL, Query Optimization, Data Transformation, Star Schema Modeling, Metadata Management, Schema Registry Generation, Relationship Mapping
- **AI & Analytics** — Forecasting Models, Embedding Models, Cosine Similarity, AI Assisted Analytics, Semantic Layer, Knowledge Graph
- **Python** — Pandas, NumPy, Scikit-learn
- **Power Platform** — Power Automate, Power Apps
- **SAP Ecosystem** — Datasphere, LeanIX, SAP S4HANA
- **Excel & Automation** — VBA, Power Query, Pivot Tables, Advanced Functions, Reporting Automation
- **Other Tools** — GitHub, VS Code, Claude Code, Antigravity

PROFESSIONAL EXPERIENCE

Working Student – Data Analytics

Linde GmbH, Linde Engineering

Jul 2025 – Present

Pullach, Germany

- Developed enterprise data models in SAP Datasphere and built exploratory machine learning and LLM-driven forecasting workflows in Azure Databricks to classify engineering project deviations.
- Designed interactive Power BI dashboards, automated legacy reporting workflows using Excel Power Query and VBA, and built custom Power Apps solutions to optimize resource management.
- Advised teams on DAX, semantic modeling, and visualization best practices, and drove internal enablement through technical documentation, training sessions, and demo videos.

Working Student – Digitalization

Linde GmbH, Linde Engineering

Jul 2025 – Dec 2025

Pullach, Germany

- Gathered, analyzed, and translated business needs into structured functional requirements for ProMA, an SAP-based project management application.
- Facilitated workshops across departments to collect feedback, validate requirements, and bridge the gap between business sponsors and IT development teams.
- Conducted comprehensive functional testing to resolve usability gaps and developed detailed organizational governance frameworks to define operational roles.

Data Analyst and Process Improvement Engineer

Hyundai Nishat Motor (Pvt.) Ltd.

Apr 2021 – May 2023

Faisalabad, Pakistan

- Built KPI and operational dashboards in Power BI and Excel to monitor production performance, quality trends, downtime, and defects, enabling faster business decisions.
- Conducted detailed operational and statistical analysis including man hour analysis, root cause analysis, and process performance tracking to improve efficiency and reduce waste.

PROJECTS

Portfolio

Semantic Layer for Enterprise Analytics and AI Integration <i>Master's Thesis Databricks SAP Datasphere & LeanIX SQL MCP Python</i>	Feb 2026 – Aug 2026
Power BI Row-Level Commenting <i>Linde Engineering Power Apps Databricks PySpark Delta Lake</i>	Apr 2026 – May 2026
Power BI Modeling Assistant <i>Linde Engineering Python Power BI Databricks AI MCP GenAI</i>	Feb 2026 – May 2026
Manhours Forecasting Model (AI-Driven) - POC <i>Linde Engineering Azure Databricks LLMs Python GenAI</i>	Mar 2026 – Apr 2026
OCR Tool with LLM Integration <i>Linde Engineering Azure Databricks</i>	Mar 2026 – Apr 2026
Tableau to Power BI Migration <i>Linde Engineering Power BI SAP Datasphere</i>	Jul 2025 – Dec 2025
BookMyConsult <i>Linde GmbH, Linde Engineering Power Apps</i>	Sep 2025 – Oct 2025
End-to-End Data Analysis and Visualization <i>Udemy (Self-Led Project) Python</i>	Dec 2024 – Feb 2025
Sales Analytics Dashboard <i>Udemy (Self-Led Project) Power BI</i>	Jul 2024 – Aug 2024
Schema Design & Analytics for Online Learning Platforms <i>Hochschule Harz SQL Semantic Model Star Schema</i>	Jun 2024 – Aug 2024
SAP Sales and Distribution Case Study <i>Hochschule Harz SAP S4HANA</i>	Jun 2024 – Aug 2024
Operational Quality Dashboard Automation <i>Hyundai Nishat Motor (Pvt.) Ltd. Power BI Power Automate</i>	Apr 2022 – May 2023

EDUCATION

Master of Engineering, Technology and Innovation Mgmt. <i>Hochschule Harz</i> • Grade: 2.2/5.0 • Master's Thesis, Mar 2026 – Aug 2026: Designing a Semantic Layer for Enterprise Analytics and AI Integration using SAP Datasphere, SAP LeanIX, and Azure Databricks. • Relevant coursework: Data Analytics, Big Data, Digital Transformation, Agile Requirements Engineering, Market Intelligence, and Information Retrieval.	Mar 2023 – Aug 2026 <i>Wernigerode, Germany</i>
Bachelor of Engineering, Mechanical Engineering <i>NED University of Engineering and Technology</i> • Grade: 1.7/5.0	Dec 2015 – Oct 2019 <i>Karachi, Pakistan</i>

CERTIFICATES

- Microsoft Power BI Desktop for Business Intelligence by Udemy
- Complete Data Analyst Bootcamp - Python by Udemy
- Excel (Advanced) by Udemy
